

How to view your family's schedule

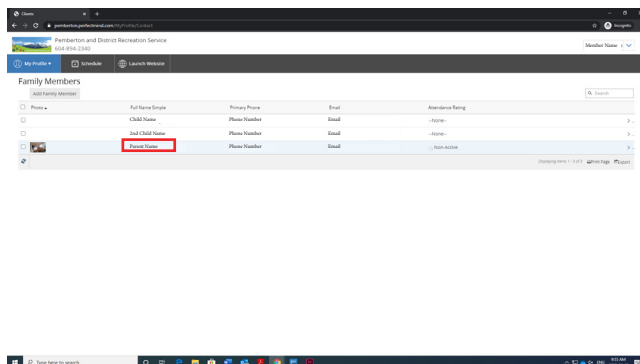

Login to your account at pemberton.perfectmind.com

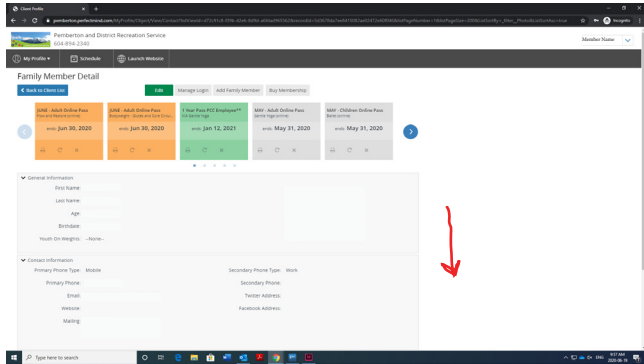

Click on "My Info" under the "My profile" tab

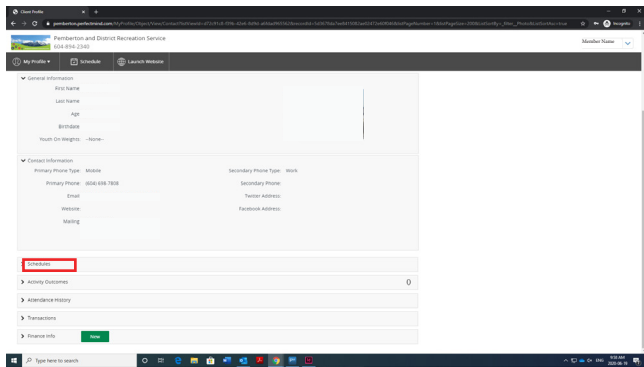

Select a family member. It does not matter which one you select at this time. Click the name not the box.

You are now viewing the selected family member's information. Scroll down to "Schedule".

Select "Schedule"

You can toggle your family members so that you can see everyone's schedules at the same time or only one. To do this click the box beside the names.
